You directed that your inspection be based upon Combined sampling, Bureau Veritas advises all clients of the risks associated with "Combined Sampling" where several different product styles are combined to make a single lot size. Combined Sampling represents an increased level of risk to you as statistical rules are compromised and the chances of missing quality issues are much greater than during single style sampling. We disclaim any liability to you if you make decisions concerning the acceptance, payment authorization, or shipment of the inspected goods based upon Combined Sampling.

During inspection, the color evaluation was performed by inspector in the inspection room under normal day light or other light sources specified by client. The evaluation & grading are preliminary based on factory lighting conditions at time of inspection. For accurate rating & results, color conformity should be performed by a qualified technician in a laboratory under a standard environment.

D.WORKMANSHIP (Basic Function & Appearance)	
Inspection Standard:	ANSI/ASQ Z1.4 (formerly known as MIL-STD-105E)

This document reflects our findings at the time and place of inspection, which was conducted by means of comparing reference product(s) and documents against samples that are randomly-picked in accordance with an agreed random statistical sampling standard from the lot(s) of finished products presented to our inspectors. This comparison was done in accordance with agreed inspection protocol and/or other agreement.

If certain methods and processes which vary or deviate from the standard and/or recommended practices of Bureau Veritas Consumer Product Services were adopted for the performance of this inspection at the request of the client, Bureau Veritas Consumer Product Services is not liable for the possible compromise of the recorded observations due to such variations of deviations.

This report/certificate does not discharge or release sellers/suppliers from their commercial, legal or contractual obligations with regard to quality/quantity of delivery nor does it prejudice the buyer's right of claim toward sellers/suppliers for compensation for any defects (apparent or otherwise) not detected during our random inspection or occurring thereafter.

Bureau Veritas does not accept any liability for the quality of products in this shipment that were not produced at the time of the inspection taking place. Further, this report/certificate does not evidence shipment.

Our services, including reports and certificates, are subject to the Bureau Veritas Consumer Products General Conditions of Service of which have been sent to your company. They can be resent upon written request.
